

VISTA VVR

RANGE OF TRUE DAY/NIGHT CAMERAS

TOUGH 24 HOUR SURVEILLANCE

The extended true day/night vandal resistant range of cameras are part of Vista's popular VVR range of vandal resistant products. Encased in a stylish aluminium dome housing with tough Lexan windows and dome bubbles, these cameras are tested to withstand a blow from a 10lb sledgehammer.

Featuring a switchable IR cut filter these cameras produce an excellent quality colour image during the day, switching to a sharp monochrome image at night. The flexibility of the integral 4-9mm varifocal lens, 12V DC/24V AC dual power supply and the ability to mount on wall or ceiling ensures that the units can be installed virtually anywhere for a variety of applications where the camera may be prone to attack, tampering or exposed to harsh environments.

Tamper proof screws and anti-grip design add to security of the camera ensuring that no matter what is going on in the installed environment, the camera will continue to capture usable images.

IDEAL FOR APPLICATIONS SUCH AS:

- Prisons
- Schools
- Hospitals
- Car Parks
- Stair wells
- Other areas with high risk of vandalism

MAIN FEATURES:

- Switchable filter offering true day/night images
- Covert operation with IR lighting
- 4-9mm Varifocal Direct Drive lens
- Dual voltage 12V DC/24V AC
- 0.5 lux colour / 0.04 lux monochrome
- Vandal resistant housing suitable for outdoor use
